SolarWinds Trademarks guarantee the quality of the core products, sub-brands, etc. The value symbolized by the SolarWinds trademark, and recognized by consumers, corporations, and the IT community, drives awareness every year and builds on the valuable goodwill afforded by this association. At their core, SolarWinds Trademarks identify SolarWinds as a company that is **credible and trustworthy**.

SolarWinds Copyrights demonstrate SolarWinds ownership of its creative works – be it its software or services products, an industry white paper, or its website.

SolarWinds Domains are used by SolarWinds to market, distribute, and promote its products and services as well as to create a mechanism for communication with its customers.

All rights not expressly granted by SolarWinds to you are reserved by SolarWinds. Any goodwill derived from using any part of the SolarWinds Trademarks, Copyrights, and Domains exclusively inure to the benefit of and belong to SolarWinds. In following the Guidelines contained herein, you help us protect our valuable intellectual property rights and strengthen our corporate and brand identity.

PROPER USE, TRADEMARK NOTICE, AND ATTRIBUTION

Proper Utilization

In practice, trademarks are the brand names used to distinguish similar products or services from each other. Grammatically, trademarks should be used as adjectives to modify nouns; the noun is the generic name of a product or service. An appropriate generic term should appear after the trademark the first time
it appears and as often as commercially reasonable after that. In sum, SolarWinds Trademarks should be used as adjectives, with a generic term following the same.

**ACCEPTABLE:**

- ORION® Platform
- SOLARWINDS® Network Performance Monitor software
- WEB HELP DESK® software
- PERFSTACK™ dashboard

**UNACCEPTABLE:**

- Use ORION
- Buy SOLARWINDS
- WEB HELP DESK delivers simplicity and automation
- PERFSTACK is next-gen monitoring

A trademark should not be altered, appended, or abbreviated in any way, and always spell the SolarWinds Trademarks as shown in the SolarWinds Trademarks List [https://www.solarwinds.com/legal/trademarks.](https://www.solarwinds.com/legal/trademarks)

Do not combine any names or designs with any of SolarWinds Trademarks.

When using the trade name or corporate name to refer to the business, the designator ® or ™ should not be used.

“SolarWinds Worldwide, LLC is pleased to announce…”

Designs or stylized marks must be used in the same consistent font, size and color. For example, the SOLARWINDS logo must be used on a white background, with no alterations to the font of the SOLARWINDS term or the color of the design. The use must always be legible and maintain the integrity of its form.

Make the SolarWinds Trademarks distinguishable, at least in the first reference, and set it apart from the surrounding text, either by capitalizing it or by italicizing, bolding, or underlining it.

SolarWinds Trademarks may not be used by other parties in marketing, promotional, or advertising materials to create the perception that SolarWinds endorses, sponsors, and/or supports a third party or a third party product, service, or promotion.

**Proper Trademark Notification**

On products, product documentation, or other product communications, please use the appropriate trademark symbol (“,” ®) the first time a SolarWinds Trademark appears in the text. For reference, SolarWinds provides a complete trademark list of registered and unregistered trademarks on its website at [https://www.solarwinds.com/legal/trademarks.](https://www.solarwinds.com/legal/trademarks)
